

TWISTER™ JAR

For the Thickest Ingredients

Beyond Smoothies

Blendtec has taken blending above and beyond traditional smoothies. Add premium recipes and specialties to your menu with the aggressively engineered Twister jar, with its specially designed scraper lid and spatula. Used with the best blender in the world, it's a winning combination.

TWISTER™ JAR

For the Thickest Ingredients

Premium blends, premium products.

Blendtec's Twister jar was designed to tackle the toughest and most unique blends ever. This jar was developed to blend recipes such as fresh almond butter, hummus, guacamole, super-thick shakes, dressings, sauces, smoothies as small as 6 ounces and many more premium items in just seconds.

The magic is in the lid.

Simply twist the patent-pending Twister lid to push thick products from the jar walls back into the blending vortex. This feature makes it the most aggressive blender jar we've ever offered. **Letting you turn nuts into warm, creamy nut butter in under 20 seconds!**

Standard Features

VORTEX

- Patent-pending Twister scraper tines force ingredients off the jar sides and back into the blending vortex

ERGONOMIC

- Lightweight material for easy lifting and pouring
- Comes with specially designed spatula for easy ingredient removal and cleaning
- Easy-to-read jar markings

SAFE & STRONG

- Made from durable Eastman Tritan™ copolyester
- BPA-free
- Blunt blade makes cleaning safe and simple

CUSTOMIZE

- Custom jar graphics available

Twister™ Lid

With unique scraper tines, the patent-pending Twister lid creates the thickest blends without the need for a messy plunger.

Gripper™ Lid

For small, thinner blends, such as single-serve smoothies and light dressings, use the included Gripper lid to contain the ingredients during blending.

Stainless Steel Wingtip Blade

The ultra-hard stainless steel blade is cold-forged and tuned for heavy use. So it's stronger and lasts longer than lesser blades. Which is why it's warranted for the life of the jar.
