**Eurowash products are proudly distributed by SAFCO Ltd.**

**Nationwide Service and support is offered 24 hours 7 days per week**

## **Eurowash EW810**

### **Premium Pass through Hood Type Dishwasher**

The Eurowash EW810 offers a 420mm high wash chamber for pass through operation, within a compact footprint.

The operator may select from 60, 90, 120 second wash cycle to rapidly wash any kind of kitchenware. A continuous wash cycle is available.

Open the massive door to reveal a cavernous wash area, able to accommodate 500mm x 500mm rack allowing larger plates, platters and GN containers to be washed with ease with the appropriate optional rack. The double skinned door, combined with the patented double flow wash pump, dramatically reduces the noise and contributes to a cooler working environment.

The patented Hood lifting system reduces the lifting effort required as in a traditional hood lift machine, to only 3KG.

Thanks to the advanced design the EW810 wash pump delivers an amazing 500 litres of water per minute through the stainless Steel top and bottom rotating wash arms to ensure a sparkling result.

The latest generation, user-friendly, Smartronic Control Panel, offers one-button colour-code controls, all within easy reach. You have a choice of four different wash cycles, to handle from the lightest to heaviest of cleaning work. A display panel shows exactly where you are in the cleaning cycle at any time, sounding an alarm when the work is done.

Regardless of selected total wash time total water consumption is an amazing 2.3 litres per cycle. Saving you money through minimal use of water, chemicals and electricity.

The EW810 also features a self-diagnostic function to analyse operation.

**The Eurowash Compact EW810 Dishwasher, part of the new Safco solution in commercial kitchens.**

**Eurowash EW810 premium features easy removable wash and rinse arms and scrap trays for cleaning. Patented anti clogging wash arm design constructed from Stainless steel for long life. Complete with built-in drain, rinse detergent and rinse aid pumps installation is simple and quick. Eurowash EW810 premium comes complete with one cup rack, one plate rack and one cutlery rack.**
