

The Australian Department of Health says that washing your hands frequently is a key part of preventing the spread of coronavirus (COVID19). This can put pressure on existing hand washing facilities.

Introducing the Eswood MOBILE HAND WASH STATION

For healthcare settings who need additional hand wash facilities, the Eswood Mobile Handwash Station provides a simple, hygienic and easy solution to ensure hand washing is carried out by staff and visitors.

PRODUCT ADVANTAGES

- Complete standalone unit can be placed where needed
- Easy to use – fill with water and plug in
- No plumbing required
- Provides 60+ hand washes per fill
